## Lesson Plan for Beginners

This plan is to serve as a general guideline for students new to the French language or students falling in the **A1-A2** spectrum of the **Common European Framework (CEF)**, used internationally to assess and describe the level of fluency achieved by a foreign language learner.

For those new to the language, this plan is designed to be an introduction to French, while the students already familiar with its rudiments will solidify their knowledge and reinforce their skills.

Materials, homework, and email support is provided.

By the end of this plan, **the student will know the fundamentals of French, will be able to express simple ideas, hold basic conversations with native French speakers** and navigate through casual situations while traveling.
